

Writing Class with Thanh My Center

A Boardwork Writing Activity

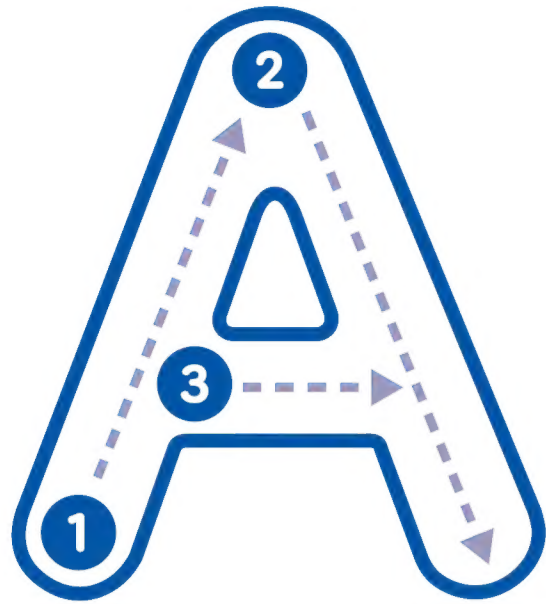

Allowing beginner writers to write on different surfaces promotes familiarity with what they are practicing. In this activity, let the students trace the alphabet on the board.

All you need to do is flash the presentation on a flat surface and let them trace the letters of the alphabet.

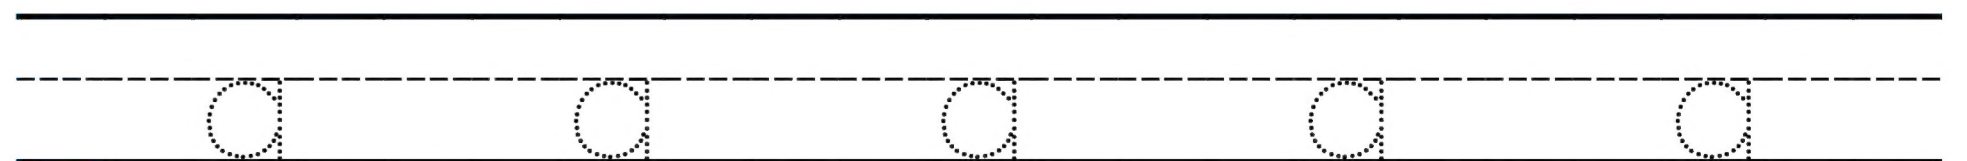

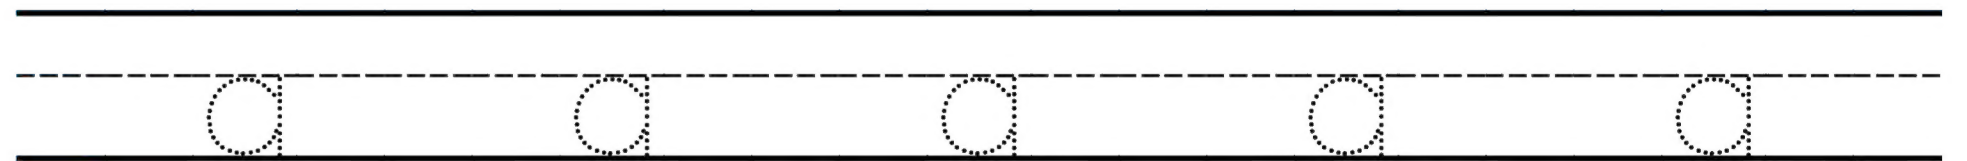

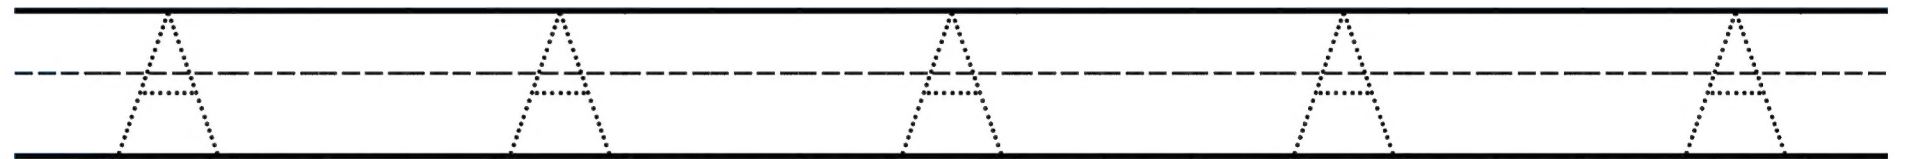

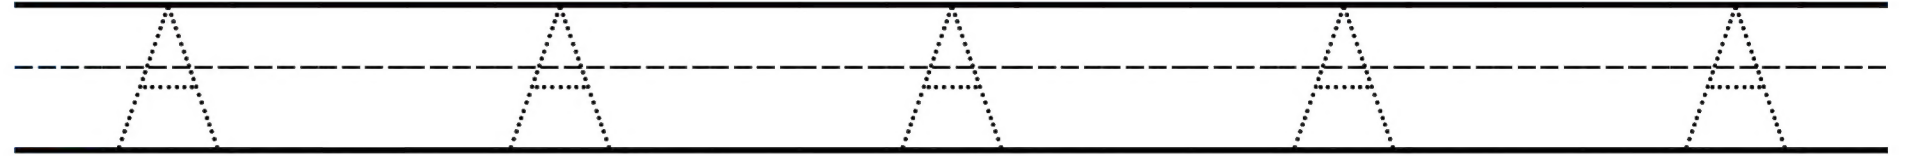

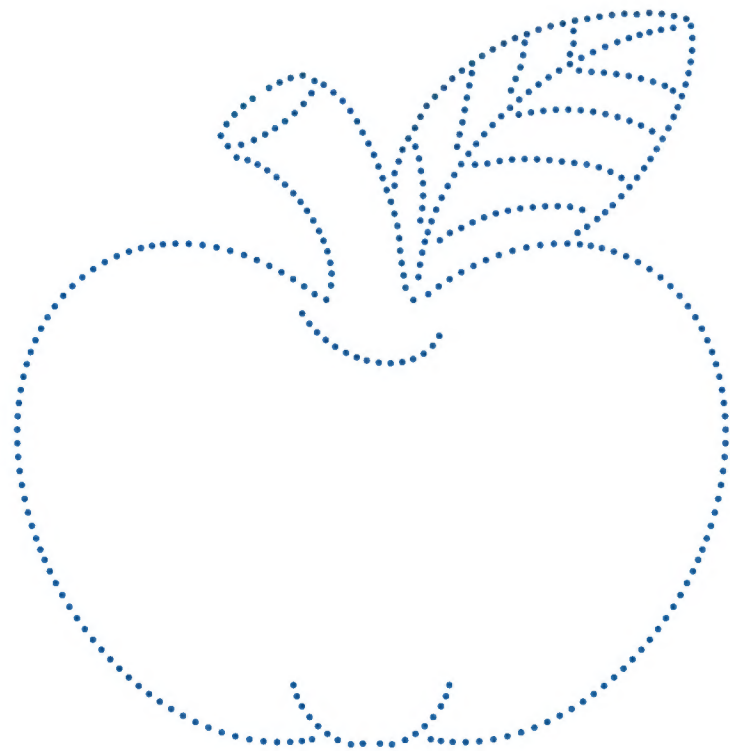

With proper guidance, this activity will bring fun and learning in the classroom.

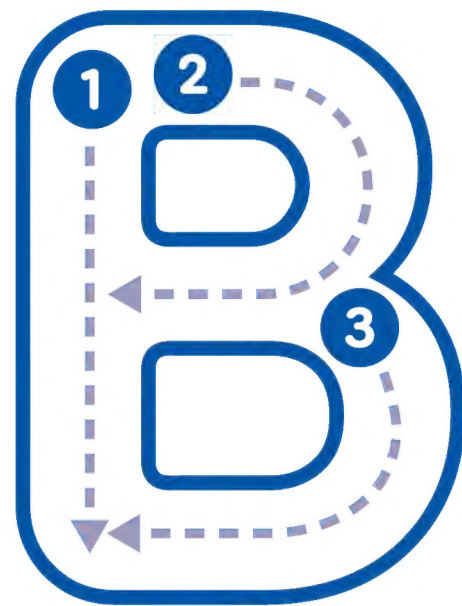

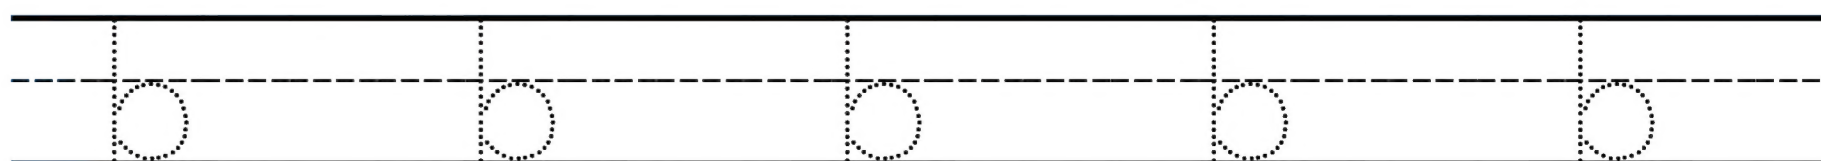

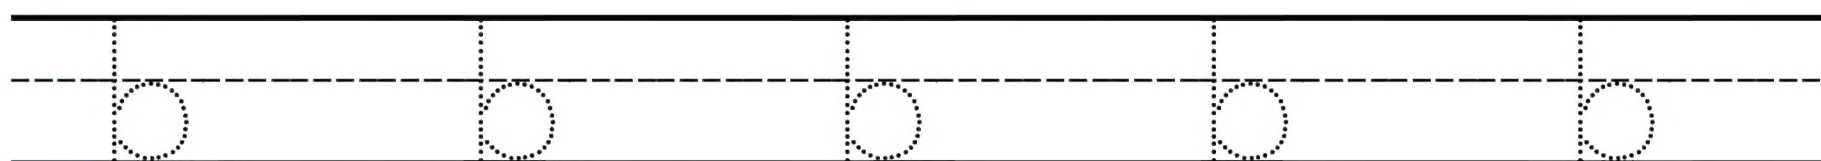

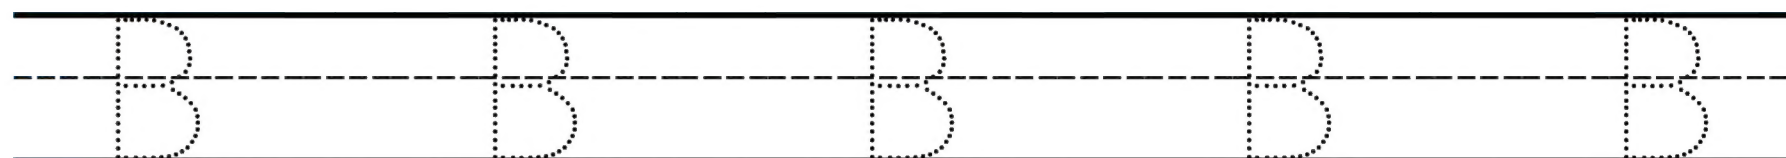

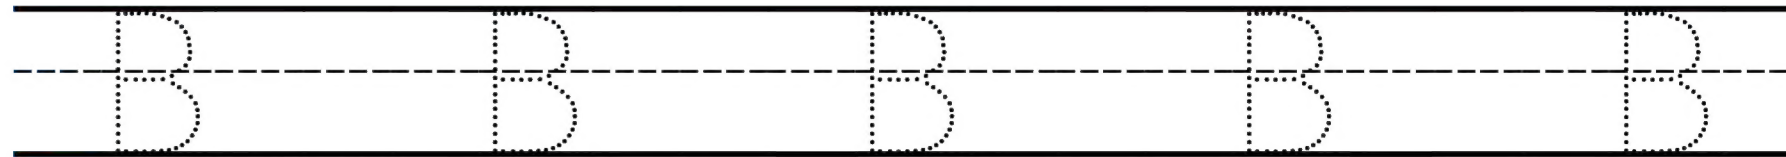

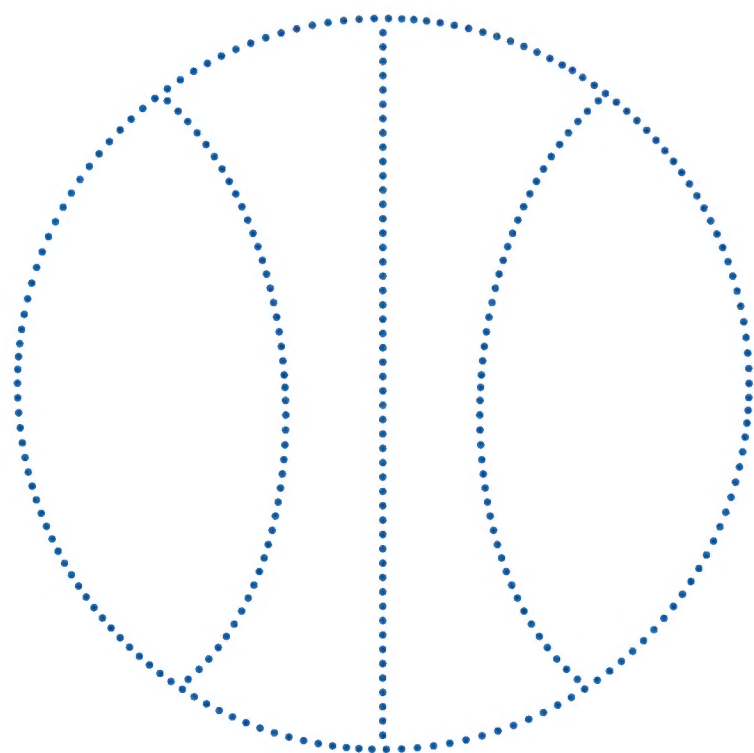

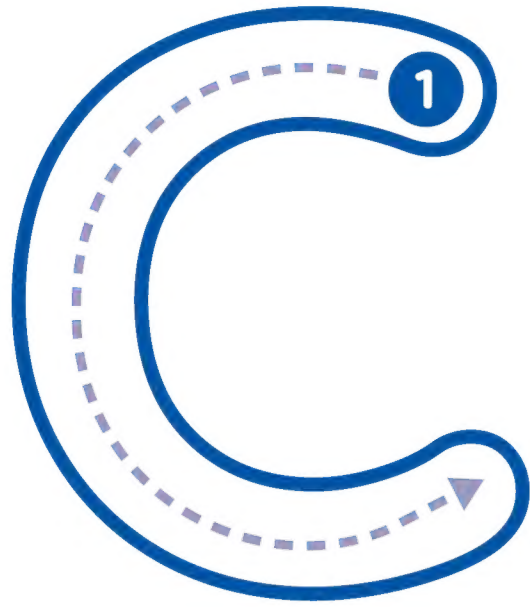

A for the Apple

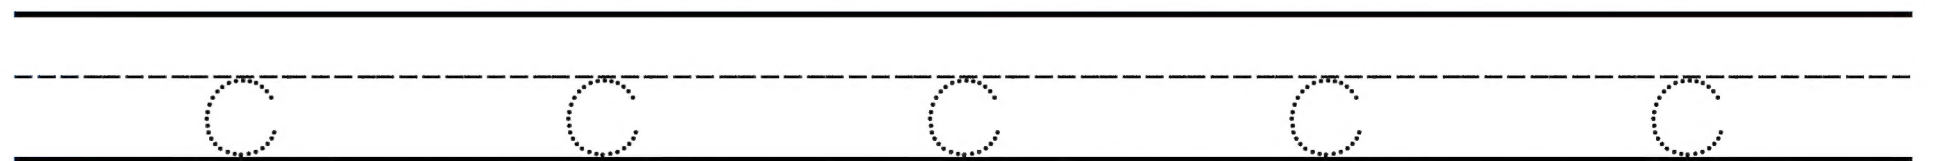

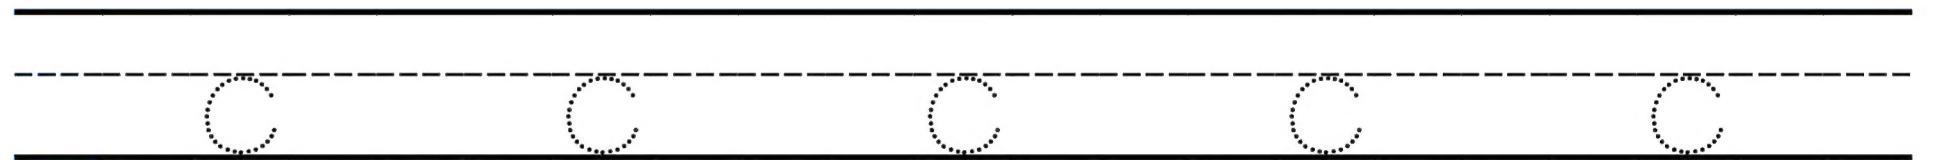

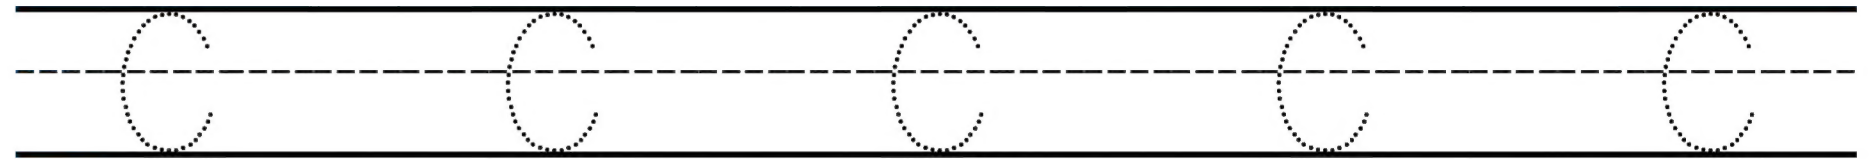

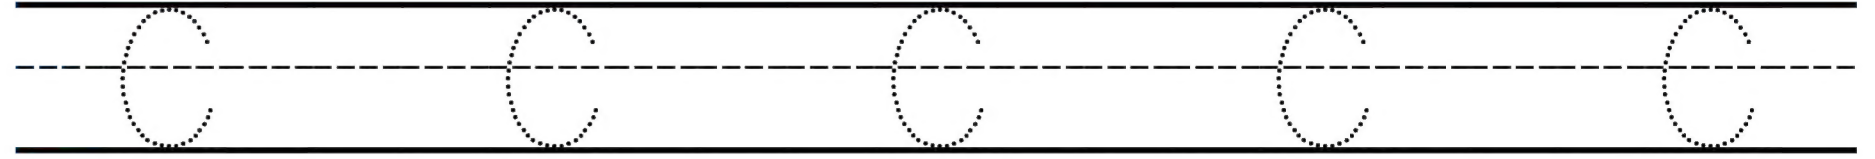

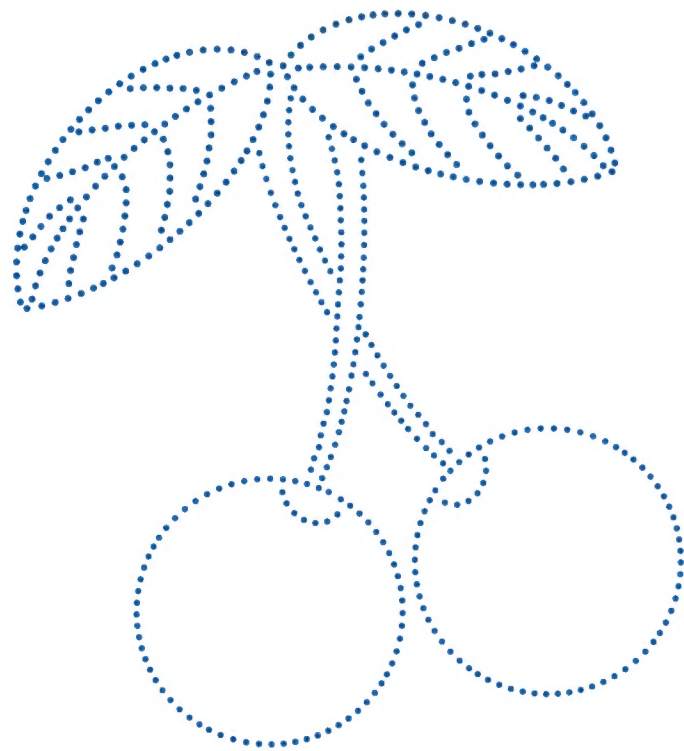

B for the Ball

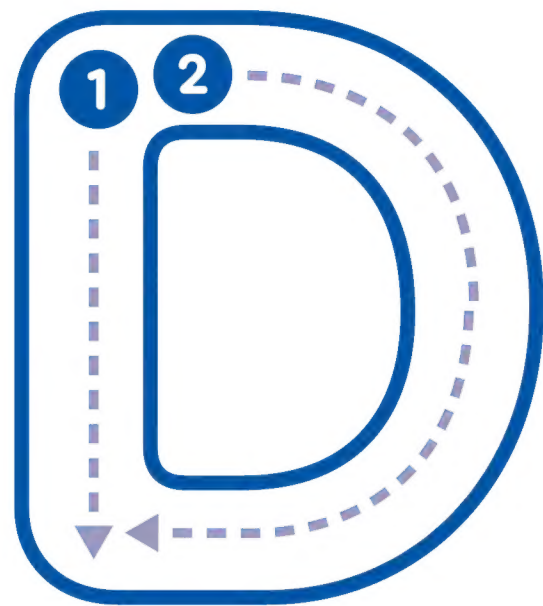

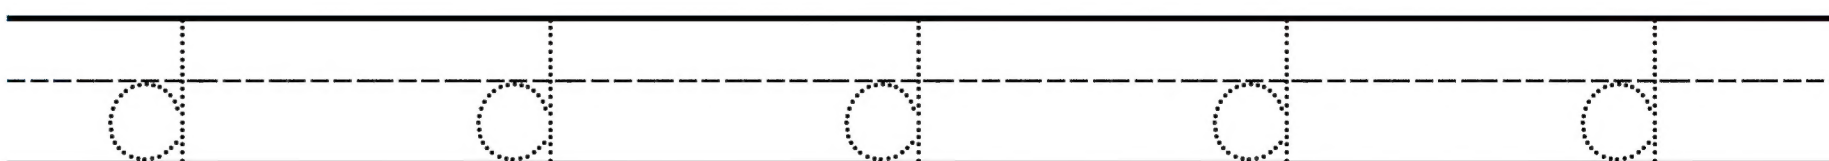

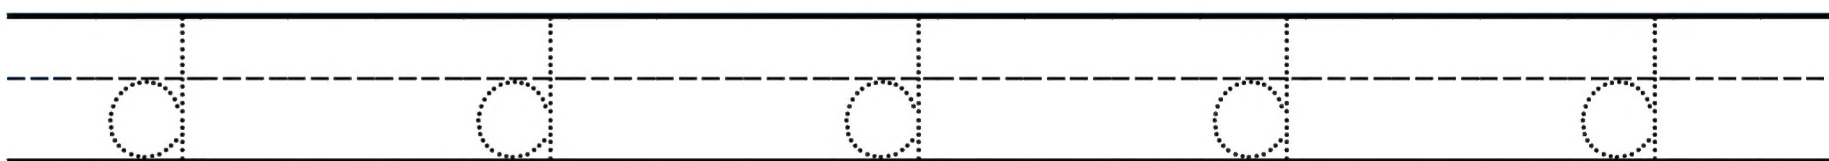

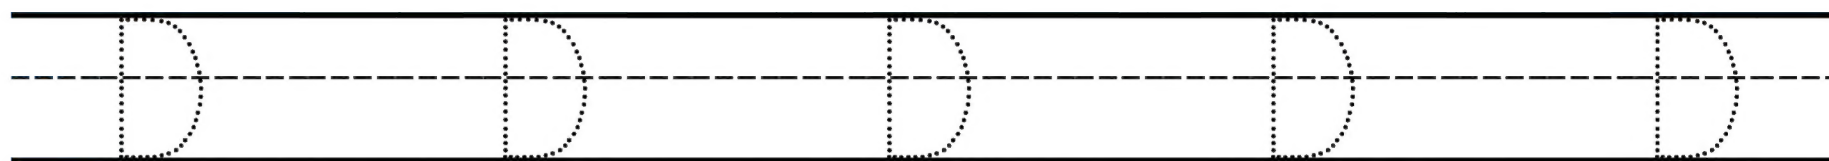

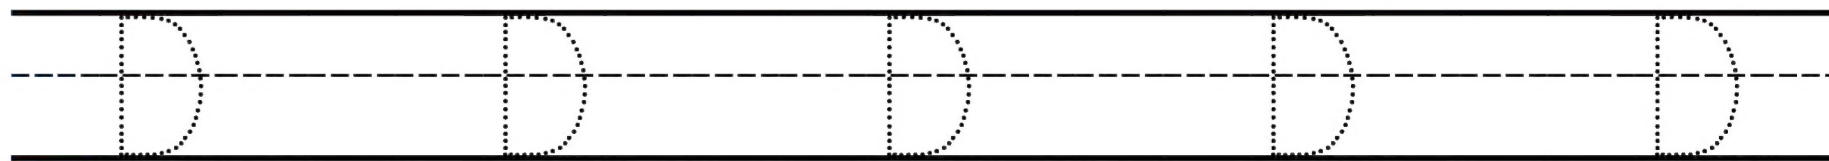

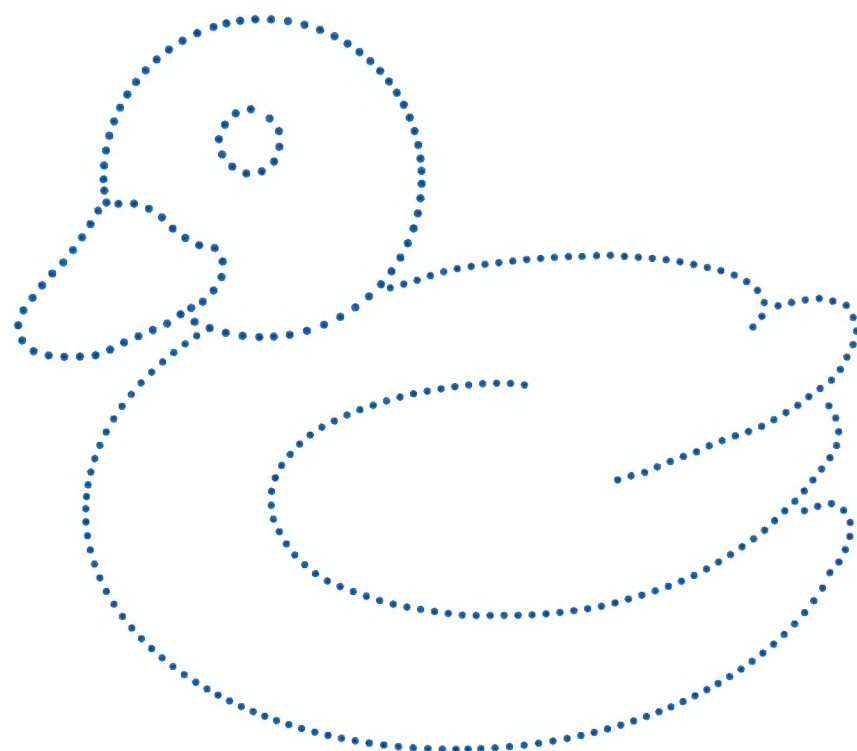

C for the Cherries

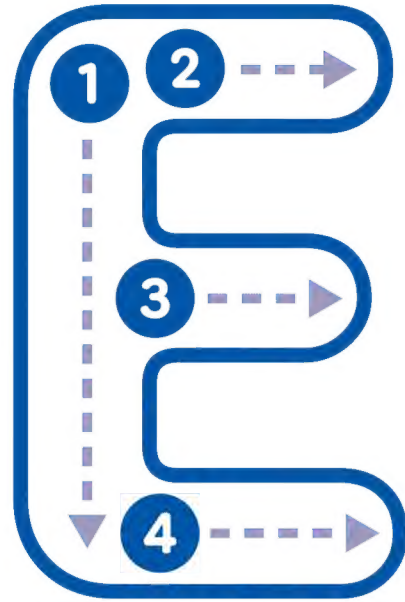

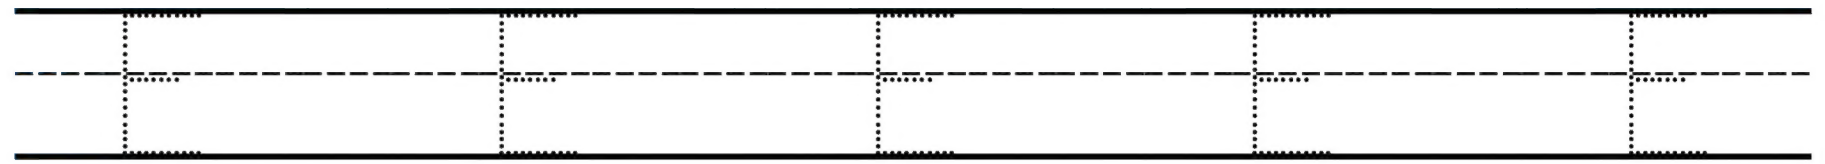

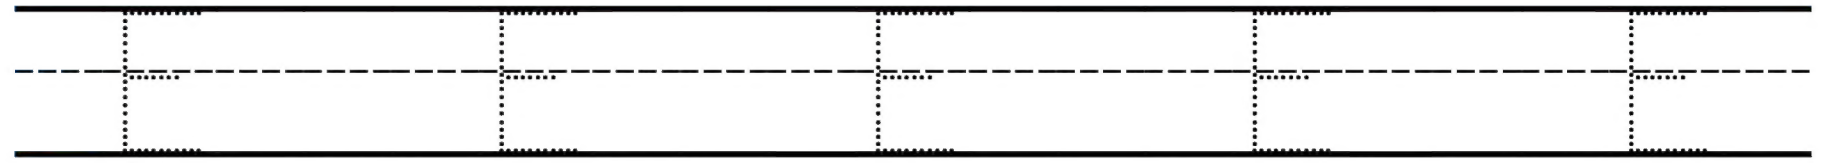

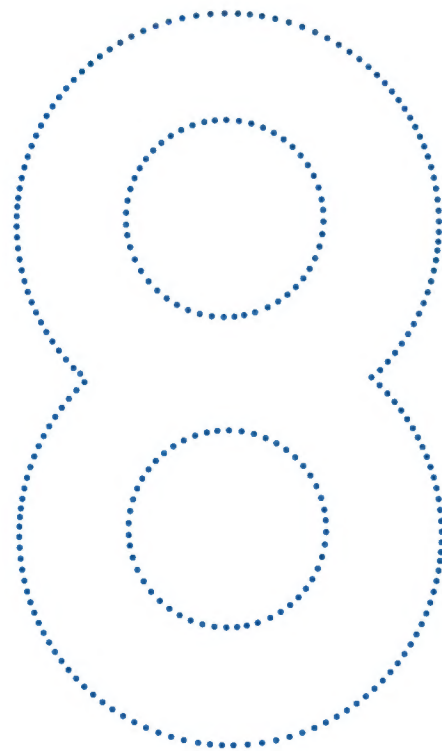

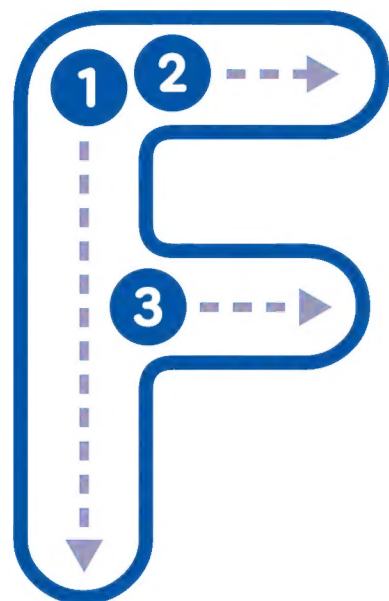

D for the Duck

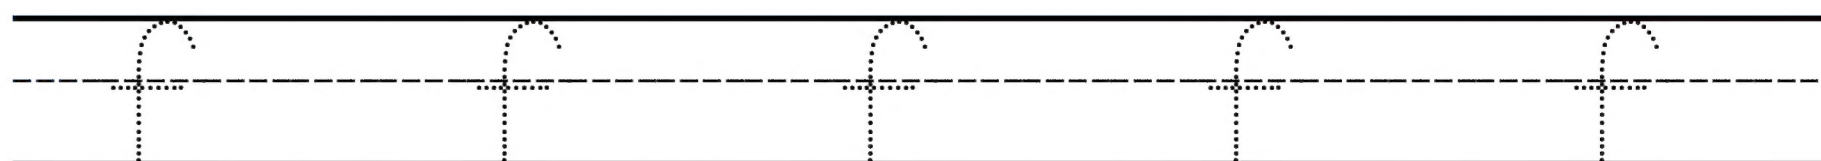

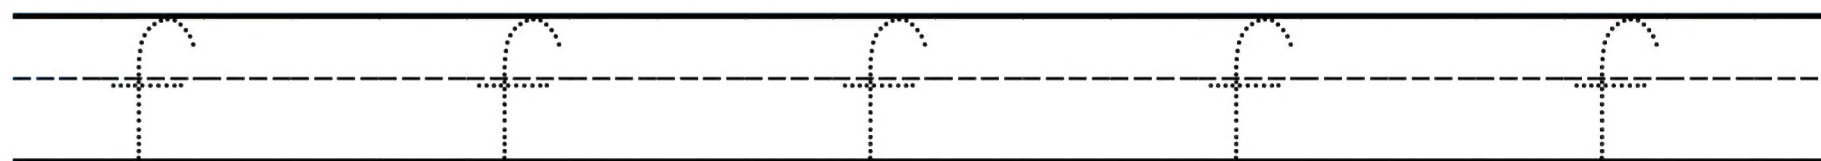

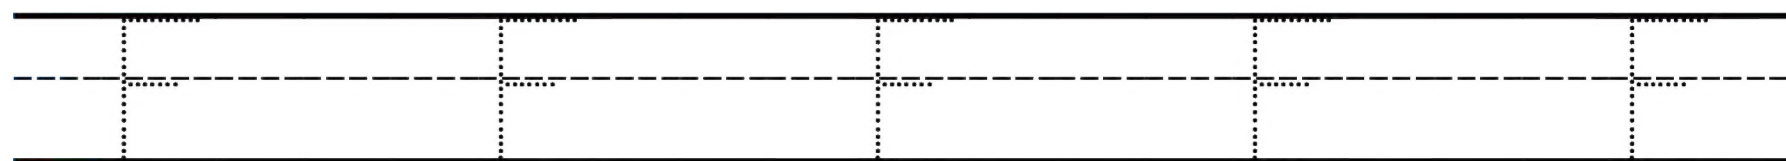

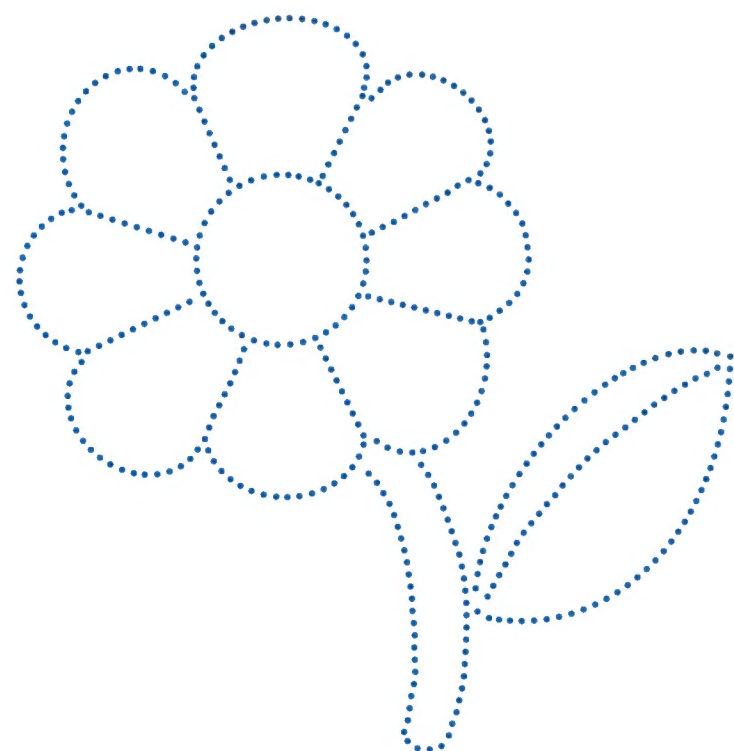

E for the Eight
